Corporate
PROFILE

WHO WE ARE

A-DOPT INTERNATIONAL SERVICES NIGERIA LIMITED (ADIS) is an indigenous Engineering Procurement and Construction Company.

The Company was incorporated with Corporate Affairs Commission in March 2009, and began operations effectively in June 2016.

Incorporated as an EPC company, ADISL has evolved to include a wing to her Business Operations – ENVIRONMENTAL MANAGEMENT AND CONSULTING SERVICES and thus evolving into an Environmental, Engineering, Procurement, and Construction (EEP & C) Company with the addition of Modern Digital Laboratory.

OUR MISSION

To ensure efficient and prompt service delivery in concurrence with clients. Strategic objectives and policies while ensuring that optimal standard is maintained.

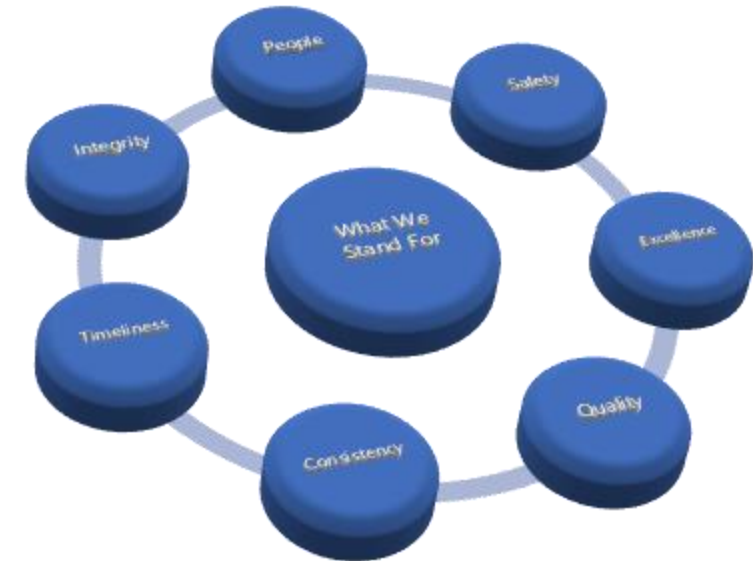

OUR VISION

To be the most preferred indigenous EEPCC company providing valuable solutions to our clients in Nigeria and around the Globe and to become the foremost Engineering and Environmental Consulting Firm in Nigeria and West Africa.

OUR CORE VALUES

- ❑ Our Staff, Our Strength
- ❑ We maintain the highest standard. We believe in a safe work environment (IF NOT SAFE, DON'T WORK).
- ❑ We conduct our business with the highest ethical standard, standing true to our high values and systems.
- ❑ Our close-knit structure, work environment, culture, and ethics help us keep and maintain the best skilled and most talented professionals who are dedicated and committed to bringing the best in every project we handle.

SAFETY POLICY

The management of ADISL places SAFETY as a top priority.

- Provision and Compulsory use of PPE
- Mandatory Training for all personnel and continuous in-house training
- Mandatory `SAFETY BRIEFING for all Visitors
- Unsafe Act Reporting Form
- Unsafe Conditions Reporting form
- STOP WORK ORDER/CARD
- Incident Reporting forms
- Confined Space Entry Safety Authorization form
- Hazard Operability (HAZOP) or Hazard Identification form
- Gas Testing and Certification form
- Mandatory Swimming and HUET for all field Personnel

ENVIRONMENTAL POLICY

A-DOPT International Services believes and holds strongly to the principles of environmental sustainability with a strong environmental management policy and a very strong commitment by management to sustainable environmental practice in project executions.

COMMUNITY RELATIONS POLICY

- ADISL takes community relations very seriously.
- We see our host communities as PARTNERS in the PROJECT.
- At ADISL, we are committed to sound community relations.
- Our host communities are thoroughly engaged in our project management plan and we strive to continually improve our relationship with our host communities.

THE PROBLEM

Solving problems requires having a clear and in-depth understanding of the environment and associated problem(s) using qualified and competent personnel with requisite professional experience as well as reliable skills.

OUR SERVICES

We seek to provide your organization with our cutting-edge services and solutions and also provide world-class fully equipped laboratory services for sample testing and analysis.
